Telephone No. 132

Entered June 16, 1902, as second class matter at Postoffice at Poplar Bluff, Mo., under act of Congress, on March 3, 1879.

POPLAR BLUFF, MISSOURI, MONDAY, APRIL 22, 1912.

EDITORIAL

Are not the women of Poplar Bluff satisfied? They have had a taste of suffrage. More than that, they have handled exclusively an entire election. And they did it in such a manner as to reflect credit upon themselves and the organization they represent. They made money at it, too, honorable money; which is more than most men politicians can assert. We congratulate the women of the Civic League upon their splendid success as campaigners and gentle suffragists.

THE UNFETTERED PARTY.

"I am glad," says Governor Dix of New York, "that the delegation from New York State will go to Baltimore unfettered."

Isn't it inspiring?

If the ninety delegates were fettered they would be obliged to vote as a unit for some candidate named by the Democratic state convention.

Being unfettered, they will vote as a unit for some candidate named by Charles F. Murphy, despotic ruler of New York's Democracy.

WIRELESS CONFUSION.

Notwithstanding the superbly meritorious and saving service given by the Marconi wireless telegraph system, the Titanic disaster has developed that something must be done to prevent confusion in the transmission of multitudinous messages through the air.

Great confusion followed the crossing of electric impulses which were sent out from various ships. They met and crossed and criss-crossed and in a number of instances resolved into meaningless clashes that were worse than indefinite.

There is no doubt concerning the efficacy of the wireless system but there is still that difficulty to be overcome, that demand for some regulation which will prevent the clash of numbers of communications as they vibrate through the atmosphere.

How shall this be done?

It is almost a perfectly definite conclusion that national governments must take a part in the solution of this problem, which is exceedingly serious. There must be some regulation, some directing authority which shall so distribute and handle this service as to preclude the possibility of important messages being lost in the intricacies of transmission.

Until some such step is taken just such confusion as that which marked the wireless communications regarding the destruction of the Titanic will follow. Mr. Marconi invented the wonderful aerial system of telegraphy; it now becomes his duty to invent a scheme to make it give full value.

HOME ENDORSEMENT

Hundreds of Poplar Bluff Citizens Can Tell You All About It

Home endorsement, the public expression of Poplar Bluff people, should be evidence beyond dispute for every Poplar Bluff reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in faraway places. Read the following:

Mrs. Dora McNeely, 545 Cherry St., Poplar Bluff, Mo., says: "For over two years I have been most awfully bothered with hard, dull backache, pains over my sides and kidney regions. When I bent over it hurt my back and in the small of my back the pain was intense and hard to endure. About eighteen months ago I tried Doan's Kidney Pills and they give me fine relief and there has not been any return of the trouble. Should any of the old pains and ailments come back I would again resort to the use of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NOTICE.

All that are indebted to me for sprinkling please look up your old receipts and be ready when collector calls.

CATARRH CANNOT BE CURED with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials.

If Columbus Could Come Back

If the great discoverer of the new world could come back on this anniversary of his great achievement, his surprise would be more startling than when he was confronted by the native Indians in 1492.

If he could visit this store, for instance, and note the systematic manner in which we provide and deliver the best of everything to our customers, he would realize indeed, that he really was in a new world.

We are offering this week numerous "specials" in groceries, to which we invite your attention.

WALLACE SHY ON WINNING BOXMAN

BROWNS UNABLE TO TAKE SOX'S MEASURE

Chicago Team Also Has Trouble Picking Good Flinger for a Sunday Game.

St. Louis, April 22.—Manager Wallace was unable to discover a pitcher on the Brown's hurling staff for the final battle with the Chicago White Sox yesterday afternoon at Sportsman's Park that was capable of holding the opposing batters in check, and as a result the home boys lost the second game of the series, score 8 to 3. Jack Powell started on the mound for St. Louis, and after he had been touched for five hits and three runs in four innings, Mack Allison went to the firing line. The Texas league flinger lasted only three innings, and during this time the White Sox collected four hits and added four more runs to their credit. Joe Lake finished the game, pitching the last two rounds, and the Chicago crowd added another run and four hits.

The Browns' leader was not alone in making a wrong selection for hurling honors yesterday. Callahan of the White Sox decided to give "Rube" Peters a chance to shine in his home town, but the local boy failed to make good. Up to the beginning of the fourth inning Peters had the Browns completely subdued, not allowing a hit for three rounds. The bombardment was started in the fourth, resumed again in the fifth and after two St. Louis players had walloped the ball safely in the sixth Callahan stopped the game long enough to get Ed Walsh into the fray, benching Peters. From then on the Browns failed to boost their batting averages, not getting a hit off Walsh.

BUSH AND ASSISTANTS GO ON WESTERN TOUR

President B. F. Bush of the Missouri Pacific-Iron Mountain and the Denver and Rio Grande, left St. Louis last evening by special train over the Missouri Pacific for Kansas City and the West. He was accompanied by First Vice President E. J. Pearson of the Missouri Pacific, General Manager Higgins and the chief operating officials. Vice President and General Manager E. L. Fraser of the Denver and Rio Grande, General Traffic Manager Hughes and Finlay J. Shepard, assistant to the president, left on Saturday evening for Denver.

WHY HE WAS LATE.

"What made you so late?

"I met Smithson."

"Well, that is no reason why you should be an hour late getting home for supper."

"I know, but I asked him how he was feeling, and he started on telling me about his stomach trouble."

"Did you tell him to take Chamberlain's tablets?"

"Sure that is what he needs." Sold by all dealers.

Tailor made clothes is our hobby. Come and see us. Liles & Williams.

Any kind of clothes will cover you up but if you sure enough want to dress up, see Liles & Williams.

Daily Republican want ads bring results

If you're going to ring a bulls-eye in the target practice of life you've got to have a rifle; a pea shooter is no good. Neither can you be a twenty horse-power man in ten horse-power clothes. We can dress you like a gentleman. Liles & Williams.

Don't be surprised if you have an attack of rheumatism this spring. Just rub the affected parts freely with Chamberlain's liniment and it will soon disappear. Sold by all dealers.

O'DAY'S GANG PUTS IT OVER CARDINALS

STEELE LASTS ONLY SEVEN INNINGS— FROMME IS FIRM

Cincinnati Pitcher a Puzzle at All Times—Score Finally is 7 to 1.

Cincinnati, Ohio, April 22.—Steele lasted only seven innings against the Reds in the first game of the series here yesterday afternoon and then he was driven to the bench. Up to the sixth inning, he had the Redlegs guessing at all times, but Manager O'Day's aggregation unearthed five safe swats and the game was on ice.

This collection of hits included a homer, a triple, a double, and two singles; the four bagger coming with two men on bases. Manager Bresnahan did not derrick him until the eighth, when he sent Woodburn to the mound. He yielded a safe drive and passed three men in his one session on the mound, the Reds winning 7 to 1.

Art Fromme opposed the Cardinals and was a puzzle at all times. He was found for but six hits, and their only run came as a result of bunching a single and a triple in the fourth.

STEAMERS COLLIDE WHILE IN THICK FOG

GALVESTON HARBOR SCENE OF SERIOUS ACCIDENT

One Ship Beached For Safety—Its Crew Rescued B Other Vessel.

Galveston, Texas, April 22.—The Mallory liner Denver and the Morgan Line steamer El Sud were in collision just outside of Galveston Harbor Saturday night in a heavy fog. Both vessels were damaged, the El Sud sufficiently to cause her to run on the beach for safety.

The fog yesterday was still dense, but the Denver, which was inbound from New York, carrying 20 passengers and a quantity of freight, went into her berth with a disfigured bow and several plates loosened. The other steamer carried no passengers, but a cargo of freight for New York.

Glimpses of El Sud through glasses when the fog lifted at times today showed her to be on the beach so low at the bow that her propeller was visible. Tugs were trying to work her off, a fact which indicated she was considered seaworthy. The Denver brought in seventeen of the El Sud's crew. The men came on board at the time of the collision last night.

B. H. PAYNE OVERCOME BY GAS IN BATHROOM

GENERAL PASSENGER AGENT SAVED BY HEROIC EFFORTS

Iron Mountain Official Unconscious on Floor When Son Rescues Him.

B. H. Payne, general passenger agent of the Missouri Pacific, narrowly escaped asphyxiation at noon yesterday in the bathroom of his home at No. 542 Oakwood avenue, Webster Groves, when a gas stove leaked after he had turned out the flame.

He was saved by Dr. W. R. North of Elm and Lockwood avenues, Webster Groves, who was taken eight blocks in less than three minutes in the automobile of R. W. Price, Payne's neighbor.

Price was summoned by Miss Grace Payne, 18 years old, after her brother, B. H. Payne, Jr., 45 years old, had entered gas, climbed through the bathroom window and found his father on the floor.

Price jumped into his automobile and speeded to the residence of Dr. North, who had been notified to be ready. The doctor jumped into the automobile as soon as Price drew up at the curb and was hurried to the Payne home.

Miss Payne and her brother were the only members of the family at home when the accident occurred. Mrs. Challis Hyde Payne was returning from church when Dr. North arrived.

Dr. North found Mr. Payne unconscious. It was believed oxygen would be needed, and Dr. North sent Price to a drug store to obtain it. When Price returned Mr. Payne was revived, and although very weak, was considered out of danger.

Payne started to bathe about 11:30 o'clock. Fearing a cold he turned on the gas in a small stove. A few minutes before he intended to leave the bathroom he turned out the flame, but neglected to close the tube leading to the burner.

In a short time the small room was filled with gas, and Mr. Payne had dropped unconscious to the floor.

It was said last night at Mr. Payne's home that he was entirely out of danger, but that he would be kept to his bed for several days. He is 50 years old.

64 TITANIC VICTIMS RECOVERED BY VESSEL

CHARTERED STEAMER IS SUCCESSFUL IN SEARCH

Names of Identified Not Wirelessed—Some Reburied at Sea—Is may to Capital.

New York, April 22.—The steamer Mackay-Bennett, which was sent out by the White Star line to search the scene of the Titanic disaster for bodies of victims, reported last night that it had recovered sixty-four bodies.

It was said a number of the bodies recovered were sunk again, as they were without identification marks. The names of those identified could not be obtained through the Cape Race wireless station.

Prior to the wireless telling of the finding of the bodies two messages addressed to J. Bruce Ismay, president of the International Mercantile Marine Company, were received from the Mackay-Bennett via Cape Race. These messages reported steamship Rhein had sighted bodies near the scene of the Titanic wreck. The first message was dated April 20, and read:

Steamer Rhein reports passing wreckage and bodies 42.1 north, 49.3 west; eight miles west of three big icebergs. Now making for position. Expect to arrive at 8 o'clock tonight.

(Signed) MACKAY-BENNETT

The second message reads:

Received further information from Bremen (presumably steamship Bremen), and will arrive on ground at 8 o'clock p. m. Start on operations tomorrow. Have been considerably delayed on passage by dense fog.

(Signed) MACKAY-BENNETT.

Before his departure for Washington, Mr. Ismay, after reading the two messages, said:

"The cable ship Mackay-Bennett has been chartered by the White Star line and ordered to proceed to the scene of disaster and to do all she could to recover bodies and glean all information possible.

"Every effort will be made to identify bodies recovered and any news will be sent through immediately by wireless. In addition to such messages as these, the Mackay-Bennett will make a report of its activities each morning by wireless and such reports will be made public at the offices of the White Star line.

"The cable ship has orders to remain on the scene of the wreck for at least a week, but should a large number of bodies be recovered before that time she will return to Halifax with them.

"The search for bodies will not be abandoned until no vestige of hope remains for any more recoveries.

"The Mackay-Bennett will not make any soundings as they would not serve any useful purpose because the depth where the Titanic sank is more than 2,000 fathoms."

"WOMEN ALL AT SEA"

There are thousands of women today entirely at sea, so to speak, as far as their ailments are concerned.

Many are suffering in silence rather than consult a physician, while many others have sought advice and taken medicines without help and are literally discouraged.

Such women should remember that Lydia E. Pinkham's Vegetable Compound may be relied upon to act promptly and thoroughly in such cases. It strengthens the nerves and muscles and restores the female system to a normal healthy condition.

NEW PAPER ESTABLISHED DOWN AT POCAHONTAS, ARK.

The Times, a new paper, has been established at Pocahontas, Ark., by R. N. Schoonover, who has been identified for several years with the Star-Herald of that place. The founder of the new newspaper installed his plant last week and the first issue of the Times will appear next Friday.
